6 Questions for Anne Schneck, owner of Infinity Yarns in Farmingdale

Do young people come to your store?

Yes, a lot of different age groups come to this store, even children. Knitting is a craft done by everyone – adults and children and men and women.

What's more popular—crocheting or knitting?

Crocheting is becoming more popular but both knitting and crocheting are equally popular.

What do you enjoy most about knitting?

It's therapeutic and relaxing. You aren't wasting your time because you're making something beautiful.

What project are you working on?

I'm making a clown toy!

Do you knit people gifts?

Yes. Many people knit, not for themselves, but to make things for their family. A lot of people also knit for charities. They make hats and scarves to donate them to people in need.

What services do you offer?

I teach classes every week on a daily basis. There are classes for every level and I can make a class based on a customer's request. I held a knit-a-long workshop where customers and I knitted a blanket with 20 different patterns for 20 months.
